

## MINES AND MINING STOCKS = FINANCIAL AND COMMERCIAL

## ANNUAL MEETING OF THE CENTURY

Mine Has Made a Fine Record During Past Year.

COPPER FIND ABOVE OGDEN

COMSTOCK READY FOR AN AG-GRESSIVE CAMPAIGN.

The annual meeting of the Century Gold Mining & Milling company took place last night, and after the submission and adoption of reports, which were accompanied by a general discussion of the company's affairs, the old board of directors was chosen for another year, as follows: P. W. Madsen, T. R. Cutler, Elias A. Smith, J. B. Toronto, R. W. Madsen, E. T. Studness and James Roseveur.

The finacial exhibit made by Secretory and Treasurer R. W. Madsen, showed gains for the year of \$112,036.30; losses, including \$18,000 for dividends, of \$93,422.71, while the surplus account showed \$15,613.55. The statement also showed that during the period of Dr. White's administration, from Feb. 1, 1798, to Jan. 31, 1902, the net production of the property was \$49,341.47, and during Manager Madsen's regime, Feb. 1, 17902, to March 31, 1904, the company received for the sale of oze and builion the sum of \$163,075.84, making the production of the property during the last twelve months. The report is altogether too long to give more than the briefest kind of an outline of its contents. It shows most conclusively that there is

Manager Madsen's report consisted of a most comprehensive review of opera-tions at the property during the last twelve months. The report is altogether too long to give more than the briefest kind of an outline of its contents. It shows most conclusively that there is at the present time not less than 80,-600 tons of ore of a fine milling grade opened up and ready to be broken and sent to the mill. Describing the latest discovery in the mine, Manager Madsen

While drifting on the Lizzie vein in While drifting on the Lizzie vein in No. 2 shaft, a small stringer of quartz was noticed to run into the hanging wall. By exploring this small stringer a few feet a fine vein, five to six feet wide, was opened up. It has now been drifted on north for 130 feet. This vein is known as the 'snur' vein. Three upis known as the 'spur' vein. Three upraises have been started and No. 2 is up forty-seven feet in very high-grade ore, running from \$12.80 to \$110.40 in gold This vein runs parallel with the Lizzle rois vein rois paralei with the Lizzevein on its course north and can be followed for many hundreds of feet in the company's ground. Being a new vein, it means that a new mine has been opened up in the last sixty days of the cleanest high-grade ore yet found in the Century mine."

Improvements made in mine and mill and the work done to secure a good and adequate supply of water, are all discussed in the report, and for the benefit of the shareholders at large it would seem a good idea for the man-agement to have the reports printed in pamphlet form and distributed. Previous to the holding of the annual

meeting the directors authorized the payment of another \$6,000 dividend, or 2 cents a share, the distribution, at the request of the secretary, being ordered for the 20th, books to close on the 15th. for the 20th, books to close on the 15th. This will likely be made the regular day hereafter, as to give the matter attention around the first of each month is inconvenient for the secre-

At the annual meeting President P. W. Madsen voted 115,000 of the 150,000

### COMSTOCK TO CUT LOOSE.

New Station Pump Makes it Possible to Go After the Ore Bodies.

to Go After the Ore Bodies.

Barring accident, the big 700-gallon ow station pump purchased from the ne & Smelter Supply company by the mstock, reached that Park City propy yesterday and within another two or see days will have been installed. Supersendent Hickey had already cut a stand, put in the secum and water colins, placed the tanks, etc., so the mont the pump has been set he will be day to cut loose and open up the ledge the 450-foot level from two points. The pump will relieve the two No. 9 sink-and afford ample protection against increase of water that the develapant of the vein may bring about and at same time be a safeguard against the ra surface flow that the meiting of snows is likely to make, hat the vein has been gradually but ely draining during the past two nths of dead work is evidenced by fact that the pumps are now hand-conly about 200 gallons per minute, as inst over 300 gallons a very few weeks. The combined capacity of the nps now at the mine and in readlness operate on the 450-foot level is over gallons per minute, so there is no both that the development of the ore less at that depth can go on unintertedly from now on. In fact, drifting already commenced and, considering large number of stringers of fine ore ountered in running the last twenty, it is expected that when the ledge per has been fully opened the showing be one to gladden the hearts of the recolours.

### STOCKHOLDERS IN SADDLE.

Star Consolidated Minority to Hold a Meeting on Saturday.

Salt Lake shareholders of the Star Conolidated have awakened to the impornce of the proposition which is pending
ooking to the doubling of the capitalizaton of the corporation for the purpose
of securing a plant to handle the ores
of the mine. This interest is shown by
he call for a meeting which appears
sewhere in this paper and signed by
imothy Egan, George A. Black and
thers. The meeting will be held in the
Valker Bank building, rooms 14 and is.

New Y

It is understood that a great deal of opposition has already developed in the ranks of the shareholders residing at Tinic and, as there is a likelihood of the proposition being carried at a meeting which will soon be held under a call of the officials of the company, prompt action is considered necessary. At the meeting Saturday the entire matter will come up, for discussion and an effort will be made to enlighten all the shareholders present on the merits or demerits of the proposed deal and take such action as will protect the best interests of those shareholders who, from ignorance or otherwise, have given the subject no serious attention.

Mining Notes.

Simon Bamberger pulled out for Los Angeles Sunday night to look after his oil interests there. A. A. Ball, treasurer of the Annie Laurle company, came up from camp Sunday night to meet Mr. Kimberley.

M. J. McGill, master mechanic at the Daly-Judge property, was down from the Park yesterday on a short business er-rand The local settling price of copper for this week has been set by the American company at 124c per pound, an advance of 4c over last week. Three carloads of copper matte from the Yampa smelter and four cars of ore from Tintic were released from the Taylor & Brunton samplter yesterday morning.

James Muldoon, the business and mining man of Stateline, came up from the south yesterday morning. He says the outlook for the district seems to be growing brighter and everybody at camp is hopeful for the future.

Copper, 12% c. New York, \$4.60 to \$4.65.

MINING STOCK EXCHANGE.

Week Opens With Daly-West on the Slide and Tetro Stronger.

The week on the mining exchange opened about as it closed on Saturday last, with mighty little doing outside of Daly-West and Tetro, and only light trading in them. In the morning there was a single sale of Daly-Judge, at \$4.25.

Tetro, on the other hand, was much stronger, the purchaser having to pay it in the bid dams and along the stronger, the purchaser having to pay.

STOCK MARKET

temorrow morning.

Adolph Lochwitz, manager of the Sunrise company's Park valley property. came down from camp Sunday night to attend the annual meeting, set for yesterday. Owing to a lack of a quorum an adjournment was taken until Thursday afternoon. Mr. Lochwitz would not go into details touching the condition of the mine, but his demeanor indicated very plainly that the report which he will submit to the shareholders on Thursday will contain nothing but good news.

Notice to Stockholders Star Consoli-

dated Mining Co. There will be a meeting of the stockolders of the Star Consolidated Mining company at 2 o'clock in the after-noon of Saturday, the 9th day of April, 1904, at Walker bank building, upstairs, at rooms 14 and 15, Salt Lake City, Utah, to consider matters of great and immediate importance to all stock-

TIMOTHY EGAN. GEORGE A. BLACK. JOSEPH BAUMGARTEN,

L. L. BAUMGARTEN, D. GUERNSEY,

#### H. G. M'MILLAN. GRAIN AND PROVISIONS.

Chicago, April 4.-Prospects of rai aused general selling of wheat today .01% All cereals closed weak, July wheat be-32 ing down 1%@1½. Corn is off 1@1%. Oats show a loss of 1% and provisions 171/202212.

Predictions of favorable weather caused Predictions of favorable weather caused a bearish sentiment in the wheat pit at the opening. The July delivery was \( \frac{1}{2} \) to \( \frac{1}{2} \) to \( \frac{1}{2} \) is business. For a time the market held around the opening figures, but lack of any strong support soon began to be felt, and prices started downward. The fact that foreign grain markets were closed today tended to restrict the volume of trading, as did the approaching holiday here tomorrow. The absence of the usual activity in the pit in itself was a depressing influence. Weakness in all cash grains after the recent strength took any remaining enthusiasm out of the bulls and caused considerable liquidation of long wheat. The declines in northwestern markets were another element in the situation that encouraged sellers. Pit traders hammered the market persistently throughout the day, notwithstanding the moderately bullish crop reports from Missouri and Ohio. Pinal quotations on July were at 86%, after the prices, had touched 86%. May ranged between 94½ and 96%, closing at 94%. Clearances of wheat and flour were equal to 147,400 bushels. The amount on passage increased 1,618,600 bushels and the visible supply decreased 7,400 bushels and the visible supply decreased 7,4000 bushels. Primary receipts were 575,000 bushels, against 673,400 bushels a year ago. Minneapolis, Duluth and Chicago reported receipts of 412 cars, compared with 349 last week and 439 a year ago.

The early corn market was steady on a moderate commission house demand, but toward the noon hour a selling movement set in that caused a severe break. July opened unchanged to \( \frac{1}{2} \) did \( \frac{1}{2} \) did \( \frac{1}{2} \) for 534. After selling between \( \frac{1}{2} \) and \( \frac{1}{2} \) for occurrent grade.

The oats market was subjected to a raid early in the session, havey selling of bearish sentiment in the wheat pit at

BOOSTED.

ment in the stock market was upset. So far from an appearance of resignation to the community of interest in control of Northern Pacific, the Union Pacific's contention indicated a deter-

ranged between 55½ and 57½ and closed at 55. Local receipts were 178 cars, thirty-one of contract grade.

The oats market was subjected to a raid early in the session, havey selling of the May option by pit traders and commission houses causing much weakness. The close was weak and at the bottom. After opening ½ to ½ tower at 35½ and closed at 38. May ranged between 35½ and closed at 35½. Local receipts were 153 cars.

Provisions were weak under the influence of liberal selling by packers. A marked increase in contract stocks of pork and lard was the principal cause of the selling pressure, although the weakness in grains had some effect. Covering by shorts checked the declining tendency. The market closed easy, with July pork down 20422½ at 12.306713.32½ July lard was off 7½400c at 7.15. Ribs were 19c lower at 7.00.

The leading futures ranged as follows:
